

THERMOSET CATALOGUE

Introduction

In addition to the custom designed components that PMC manufactures for our customers, this catalogue contains an assortment of standardized enclosures in frequently requested sizes for order.

As PMC is a produce to demand manufacturer, all parts (standard or custom specs) are manufactured to order and can be shipped anywhere in North America or Europe. As all items are produced to order, standard lead time for delivery is 6-8 weeks with final lead time confirmation available at time of quotation.

How To Use This Catalogue

The thermoset parts listed on the following pages in this catalogue are divided into three sections:

- Circular cases (C)
- Rectangular cases (R)
- Square cases (S)

✓ **Sizing:**

All part sizes are listed in both inches and millimeters with standard sizes ranging from .1 to 6 inches.

✓ **Material:**

Parts can be molded in either Diallyl Phthalate (Mil-M-14, Type SDG-F) or Phenolic (Mil-M-14 Type CFG). For additional material characteristics, material data sheets are available upon request.

(Note: Standard production colors for Diallyl Phthalate are Black or Blue, and for Phenolic, the color is Black)

✓ **Covers:**

If a corresponding cover exists for a case, it is indicated in the column marked "Cover Available".

✓ **Custom Features:**

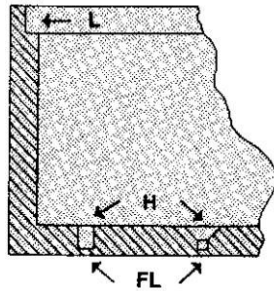

Cases with any custom features are referenced in the "Custom features" column with the appropriate code designating custom feature.

(Note that code definitions are listed at the bottom of each page.)

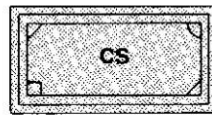

NOTE: At this point in time no standardized "off the shelf" enclosures are available in thermoplastic material as all components are custom manufactured to individual customer requirements.

CUSTOM FEATURE CODES			
L: Lip/Cover Step	SOT: Stand-Off Top	S: Shelf	
H: Holes	SOB: Stand-Off Bottom	SL: Slot	
FL: Flashed-Over	P: Post	CO: Cut-Out
